

## Variable Power Supply

### Product Description

This is regulated variable power supply which can vary voltages between 0 to 30 Volt and Current can vary from 0 to 5A. Short circuit/Over load/ Over voltage/ Over temp protection.

Variable Power Supply  
model: TKB-VPS-101

### Features:

- Condition: Brand New.
- Model No. TKB VPS30.5
- input power: 110V-240V
- Output power: 0 TO 30 V, 0 TO 5A
- Transformer Based Power Supply
- Suitable for Electrical & Electronics Lab purposes, electric industry equipment, etc.
- Lower Power consumption, Lower Temperature, high efficiency .

Youtube Video Demo for Variable Power Supply (-16v to 16v, 3A)

## Battery Eliminator

### Product Description

This is regulated power supply which eliminates between 02 To 12V.

Battery Eliminator  
Model:TKB-BE-101

### Features:

- Transformer based power supply
- Regulated Between 02 To 12V , Current ,2A
- Applicable for lab equipment power supply as per need

Input Voltage : 220V

Output Type : Dual

Output Voltage : 02V To 12V

Output Current : 2A

## Universal/E-Rickshaw Battery Charger

### Product Description

This is 48V 15A/60V 20A automatic Universal Battery Charger (All in One) which can be used for E-Rickshaw.

Universal/E-Rickshaw Battery Charger  
Model: TKB-UBS-101

### Features :

Input power: 110V-240V

Output power: 12V 15A for one battery.

Output Power: 48V 15A for four battery

Output Power(5 Batteries): 60V 20A

Transformer Based Power Supply and Charging

## Battery Charger& DC Power Supply

### Product Description

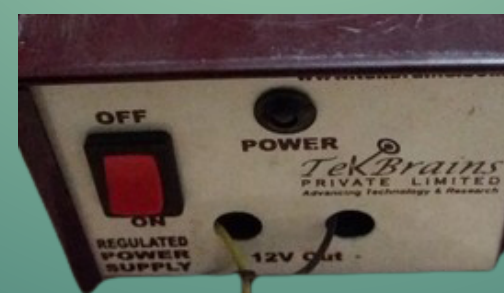

This is (12V 10A/ 12V 6A) universal Battery Charger which can charge UPS, Inverter, Motorcycle, Car, Bus and Truck , emergency light etc.

Battery Charger  
Model:TKB-BC -101

### Product Description

This is Transformer based Regulated DC Power Supply(12V 2A) which can be used as Power Supply for Lab equipment's, CCTV Camera and other electrical and electronic items
